by section 8 of part D of chapter 57 of the laws of 2018, is amended to
read as follows:

3. The department and the division of the budget shall assess on a
quarterly basis the projected total amount to be expended in the year on
a cash basis by the Medicaid program for each drug, and the projected
annual amount of state funds Medicaid drug expenditures on a cash basis
for all drugs, which shall be a component of the projected department of
health state funds Medicaid expenditures calculated for purposes of
sections ninety-one and ninety-two of part H of chapter fifty-nine of
the laws of two thousand eleven. For purposes of this section, state
funds Medicaid drug expenditures include amounts expended for drugs in
both the Medicaid fee-for-service program and Medicaid managed care
programs, minus the amount of any drug rebates or supplemental drug
rebates received by the department, including rebates pursuant to subdi-
vision five of this section with respect to rebate targets. The depart-
ment and the division of the budget shall report quarterly to the drug
utilization review board the projected state funds Medicaid drug expend-
itures including the amounts, in aggregate thereof, attributable to the
net cost of: changes in the utilization of drugs by Medicaid recipients;
changes in the number of Medicaid recipients; changes to the cost of
brand name drugs and changes to the cost of generic drugs. The informa-
tion contained in the report shall not be publicly released in a manner
that allows for the identification of an individual drug or manufacturer
or that is likely to compromise the financial competitive, or proprie-
tary nature of the information.

(a) In the event the director of the budget determines, based on Medi-
caid drug expenditures for the previous quarter or other relevant infor-
mation, that the total department of health state funds Medicaid drug
expenditure is projected to exceed the annual growth limitation imposed
by subdivision two of this section, the commissioner may identify and
refer drugs to the drug utilization review board established by section
three hundred sixty-nine-bb of the social services law for a recommenda-
tion as to whether a target supplemental Medicaid rebate should be paid
by the manufacturer of the drug to the department and the target amount
of the rebate.

(b) If the department intends to refer a drug to the drug utilization
review board pursuant to paragraph (a) of this subdivision, the depart-
ment shall notify the manufacturer of such drug and shall attempt to
reach agreement with the manufacturer on a rebate for the drug prior to
referring the drug to the drug utilization review board for review.
Such rebate may be based on evidence-based research, including, but not
limited to, such research operated or conducted by or for other state
governments, the federal government, the governments of other nations,
and third party payers or multi-state coalitions.

(c) [In the event that the commissioner and the manufacturer have
previously agreed to a supplemental rebate for a drug pursuant to para-
graph (b) of this subdivision or paragraph (e) of subdivision seven of
section three hundred sixty-seven-a of the social services law, the drug
shall not be referred to the drug utilization review board for any
further supplemental rebate for the duration of the previous rebate agreement.

(d) The department shall consider a drug's actual cost to the state, including current rebate amounts, prior to seeking an additional rebate pursuant to paragraph (b) [or (c)] of this subdivision [and shall take into consideration whether the manufacturer of the drug is providing significant discounts relative to other drugs covered by the Medicaid program].

(e) The commissioner shall be authorized to take the actions described in this section only so long as total Medicaid drug expenditures are projected to exceed the annual growth limitation imposed by subdivision two of this section.

§ 6-a. Subdivision 4 of section 280 of the public health law, as amended by section 8 of part D of chapter 57 of the laws of 2018, is amended to read as follows:

4. In determining whether to recommend a target supplemental rebate for a drug, the drug utilization review board shall consider the actual cost of the drug to the Medicaid program, including federal and state rebates, and may consider, among other things:

(a) the drug's impact on the Medicaid drug spending growth target and the adequacy of capitation rates of participating Medicaid managed care plans, and the drug's affordability and value to the Medicaid program; or

(b) significant and unjustified increases in the price of the drug; or

(c) whether the drug may be priced disproportionately to its therapeutic benefits, however, the drug utilization review board may not rely on assessments that utilize a measure that discounts the value of a life because of an individual's disability or age when recommending a target supplemental value.

§ 6-b. Subdivision 5 of section 280 of the public health law, as amended by section 8 of part D of chapter 57 of the laws of 2018, is amended to read as follows:

5. (a) If the drug utilization review board recommends a target rebate amount on a drug referred by the commissioner, the commissioner shall require a supplemental rebate to be paid by the drug's manufacturer in an amount not to exceed such target rebate amount. With respect to a rebate required in state fiscal year two thousand seventeen--two thousand eighteen, the rebate requirement shall apply beginning with the month of April, two thousand seventeen, without regard to the date the department enters into the rebate agreement with the manufacturer.

(b) The supplemental rebate required by paragraph (a) of this subdivision shall apply to drugs dispensed to enrollees of managed care providers pursuant to section three hundred sixty-four-j of the social services law and to drugs dispensed to Medicaid recipients who are not enrollees of such providers.

(c) If the drug utilization review board recommends a target rebate amount for a drug and the department is unable to negotiate a rebate from the manufacturer in an amount that is at least seventy-five percent of the target rebate amount, the commissioner is authorized to waive the provisions of paragraph (b) of subdivision three of section two hundred seventy-three of this article and the provisions of subdivisions twenty-five and twenty-five-a of section three hundred sixty-four-j of the social services law with respect to such drug; however, this waiver shall not be implemented in situations where it would prevent access by a Medicaid recipient to a drug which is the only treatment for a particular disease or condition. Under no circumstances shall the commissioner...
be authorized to waive such provisions with respect to more than two
drugs in a given time.

(d) Where the department and a manufacturer enter into a rebate agree-
mint pursuant to this section, which may be in addition to existing
rebate agreements entered into by the manufacturer with respect to the
same drug, no additional rebates shall be required to be paid by the
manufacturer to a managed care provider or any of a managed care provid-
er's agents, including but not limited to any pharmacy benefit manager,
while the department is collecting the rebate pursuant to this section.

(e) In formulating a recommendation concerning a target rebate amount
for a drug, the drug utilization review board may consider:

(i) publicly available information relevant to the pricing of the
drug;

(ii) information supplied by the department relevant to the pricing of
the drug so long as any third party supplying information to the depart-
ment or the board does not receive funding from the pharmaceutical
industry or health insurance industry and did not receive such informa-
tion from a third party that receives funding from the pharmaceutical
industry or health insurance industry;

(iii) information relating to value-based pricing however if the
department or the board rely upon any third party to provide cost-effec-
tiveness analysis or research related to value-based pricing, such anal-
ysis or research must: (A) be made available to the public, including
any underlying methodologies and models; (B) disclose any assumptions or
limitations of research findings in the context of the analysis or
research; and (C) present results in a way that reflects any different
outcomes for affected subpopulations;

(iv) the seriousness and prevalence of the disease or condition that
is treated by the drug;

(v) the extent of utilization of the drug;

(vi) the effectiveness of the drug in treating the conditions for
which it is prescribed, or in improving a patient's health, quality of
life, or overall health outcomes;

(vii) the likelihood that use of the drug will reduce the need for
other medical care, including hospitalization;

(viii) the average wholesale price, wholesale acquisition cost, retail
price of the drug, and the cost of the drug to the Medicaid program
minus rebates received by the state;

(ix) in the case of generic drugs, the number of pharmaceutical
manufacturers that produce the drug;

(x) whether there are pharmaceutical equivalents to the drug; and

(xi) information supplied by the manufacturer, if any, explaining the
relationship between the pricing of the drug and the cost of development
of the drug and/or the therapeutic benefit of the drug, or that is
otherwise pertinent to the manufacturer's pricing decision; any such
information provided shall be considered confidential and shall not be
disclosed by the drug utilization review board in a form that identifies
a specific manufacturer or prices charged for drugs by such manufactur-
er.

§ 7. Intentionally omitted.

§ 8. Paragraph (a) of subdivision 7 of section 280 of the public
health law, as amended by section 8 of part D of chapter 57 of the laws
of 2018, is amended to read as follows:

(a) If, after taking into account all rebates and supplemental rebates
received by the department, including rebates received to date pursuant
to this section, total Medicaid drug expenditures are still projected to
section, the commissioner may: subject any drug of a manufacturer referred to the drug utilization review board under this section to prior approval in accordance with existing processes and procedures when such manufacturer has not entered into a supplemental rebate agreement as required by this section; [directing] direct managed care plans to remove from their Medicaid formularies those drugs that the drug utilization review board recommends a target rebate amount for and the manufacturer has failed to enter into a rebate agreement required by this section; [promoting] promote the use of cost effective and clinically appropriate drugs other than those of a manufacturer who has a drug that the drug utilization review board recommends a target rebate amount and the manufacturer has failed to enter into a rebate agreement required by this section; [allowing] allow manufacturers to accelerate rebate payments under existing rebate contracts; and such other actions as authorized by law. The commissioner shall provide written notice to the legislature thirty days prior to taking action pursuant to this paragraph, unless action is necessary in the fourth quarter of a fiscal year to prevent total Medicaid drug expenditures from exceeding the limitation imposed by subdivision two of this section, in which case such notice to the legislature may be less than thirty days.

§ 9. Subdivision 8 of section 280 of the public health law, as added by section 8 of part D of chapter 57 of the laws of 2018, is amended to read as follows:

8. The commissioner shall report by [February] July first annually to the drug utilization review board on savings achieved through the drug cap in the last fiscal year. § 10. Section 4406-c of the public health law is amended by adding a new subdivision 10 to read as follows:

10. (a) Any contract, contract renewal, or other arrangement entered into by a health care plan for pharmacy benefit management services on behalf of individuals enrolled in a managed care provider as defined in section three hundred sixty-four-j of the social services law subsequent to the effective date of this subdivision shall include provisions that ensure the following:

(i) Payment to the pharmacy benefit manager for pharmacy benefit management services is limited to the actual ingredient costs, a dispensing fee, and an administrative fee for each claim processed. The department of health may establish a maximum administrative fee;

(iii) The pharmacy benefit manager shall not retain any portion of spread pricing. For purposes of this subdivision "spread pricing" means any amount charged or claimed by the pharmacy benefit manager in excess of the amount paid to pharmacies on behalf of the health care plan less an administrative fee as described in this paragraph. Any such excess amount shall be remitted to the health care plan on a quarterly basis.
(b) Upon entrance into a new contract, arrangement, or amendment of an existing pharmacy benefit manager contract, each health care plan shall report on a quarterly basis to the department any net savings to the health care plan which accrue based on the provisions of this subdivision. The department shall not adjust premiums to health care plans until after such plans submit reports to the department pursuant to this paragraph and the department shall not make any such premium adjustments unless such changes are deemed appropriate by its actuary. Any such premium adjustments shall be based on the reported net savings by health care plans resulting from the pharmacy benefit manager contract amendments made in compliance with this subdivision.

(c) Health care plans shall notify the department of the effective date of contracts, contract renewals or other arrangements related to services subject to the provisions of paragraph (a) of this subdivision at least fifteen days prior to entering into such contract, contract renewal or other arrangement. The department shall not adjust premiums to health care plans until such plans notify the department pursuant to this paragraph.

(d) The commissioner may promulgate regulations as necessary to implement the requirements of this subdivision, provided, however, that any such regulations shall apply to contracts, contract renewals, or other arrangements entered into subsequent to the effective date of such regulation.

§ 11. The department of health shall take no enforcement action with regards to the requirements of subdivision 10 of section 4406-c of the public health law, as added by section ten of this act, prior to the passage of 180 days from the effective date of this act, nor shall enforcement action be taken related to any non-compliance occurring prior to the passage of the same 180 days.

funds to be utilized as the state share for the purpose of increasing
payments under the medicaid program to managed care organizations
licensed under article 44 of the public health law or under article 43
of the insurance law. Such managed care organizations shall utilize such
funds for the purpose of reimbursing providers licensed pursuant to
article 28 of the public health law or article 31 or 32 of the mental
hygiene law for ambulatory behavioral health services, as determined by
the commissioner of health, in consultation with the commissioner of
alcoholism and substance abuse services and the commissioner of the
office of mental health, provided to medicaid enrolled outpatients and
for all other behavioral health services except inpatient included in
New York state's Medicaid redesign waiver approved by the centers for
medicare and Medicaid services (CMS). Such reimbursement shall be in
the form of fees for such services which are equivalent to the payments
established for such services under the ambulatory patient group (APG)
rate-setting methodology as utilized by the department of health, the
office of alcoholism and substance abuse services, or the office of
mental health for rate-setting purposes or any such other fees pursuant
to the Medicaid state plan or otherwise approved by CMS in the Medicaid
redesign waiver; provided, however, that the increase to such fees that
shall result from the provisions of this section shall not, in the
aggregate and as determined by the commissioner of health, in consulta-

and the commissioner of the office of mental health, be greater than the
increased funds made available pursuant to this section. The increase
of such ambulatory behavioral health fees to providers available under
this section shall be for all rate periods on and after the effective
date of section [29] 1 of part [B] P of chapter [59] 57 of the laws of
[2016] 2017 through March 31, [2020] 2021 for patients in the city of

services provided to persons under the age of twenty-one; provided,
however, the commissioner of health, in consultation with the commis-

as approved by the centers for medicare and medicaid services. The
commissioner of health shall, in consultation with the commissioner of
alcoholism and substance abuse services and the commissioner of mental
health, waive such conditions if a sufficient number of providers, as
determined by the commissioner, suffer a financial hardship as a conse-
quence of such alternative payment methodology requirements, or if he or
she shall determine that such alternative payment methodologies signif-
icantly threaten individuals access to ambulatory behavioral health
services. Such waiver may be applied on a provider specific or industry
wide basis. Further, such conditions may be waived, as the commissioner
determines necessary, to comply with federal rules or regulations
governing these payment methodologies. Nothing in this section shall
prohibit managed care organizations and providers from negotiating
different rates and methods of payment during such periods described
above, subject to the approval of the department of health. The depart-
ment of health shall consult with the office of alcoholism and substance
abuse services and the office of mental health in determining whether
such alternative rates shall be approved. The commissioner of health
may, in consultation with the commissioner of alcoholism and substance
abuse services and the commissioner of the office of mental health,
promulgate regulations, including emergency regulations promulgated
prior to October 1, 2015 to establish rates for ambulatory behavioral

report required under section 45-c of part A of this chapter.

2. Notwithstanding any contrary provision of law, the fees paid by
managed care organizations licensed under article 44 of the public
health law or under article 43 of the insurance law, to providers
licensed pursuant to article 28 of the public health law or article 31
or 32 of the mental hygiene law, for ambulatory behavioral health
services provided to patients enrolled in the child health insurance
program pursuant to title [one-A] 1-A of article 25 of the public health
law, shall be in the form of fees for such services which are equivalent
to the payments established for such services under the ambulatory
patient group (APG) rate-setting methodology or any such other fees
established pursuant to the Medicaid state plan. The commissioner of
health shall consult with the commissioner of alcoholism and substance
abuse services and the commissioner of the office of mental health in
determining such services and establishing such fees. Such ambulatory
behavioral health fees to providers available under this section shall be for all rate periods on and after the effective date of this chapter through [March 31, 2020] March 31, 2021, provided, however, that managed care organizations and providers may negotiate different rates and methods of payment during such periods described above, subject to the approval of the department of health. The department of health shall consult with the office of alcoholism and substance abuse services and the office of mental health in determining whether such alternative rates shall be approved. The report required under section 16-a of part C of chapter 60 of the laws of 2014 shall also include the population of patients enrolled in the child health insurance program pursuant to title [one-A] 1-A of article 25 of the public health law in its examination on the transition of behavioral health services into managed care.

Such managed care organizations shall utilize such funds for the purpose of reimbursing providers licensed pursuant to article 28 of the public health law, or pursuant to article 31 or article 32 of the mental hygiene law for ambulatory behavioral health services, as determined by the commissioner of health in consultation with the commissioner of mental health and commissioner of alcoholism and substance abuse services, provided to medicaid enrolled outpatients and for all other behavioral health services except inpatient included in New York state's Medicaid redesign waiver approved by the centers for medicare and Medicaid services (CMS). Such reimbursement shall be in the form of fees for such services which are equivalent to the payments established for such services under the ambulatory patient group (APG) rate-setting methodology as utilized by the department of health or by the office of mental health or office of alcoholism and substance abuse services for rate-setting purposes or any such other fees pursuant to the Medicaid state plan or otherwise approved by CMS in the Medicaid redesign waiver; provided, however, that the increase to such fees that shall result from the provisions of this section shall not, in the aggregate and as determined by the commissioner of health in consultation with the commissioners of mental health and alcoholism and substance abuse services, be greater than the increased funds made available pursuant to this section. The increase of such behavioral health fees to providers available under this section shall be for all rate periods on and after the effective date of section [30] 2 of part [B] P of chapter [59] 57 of the laws of [2016] 2017 through March 31, [2020] 2021 for patients in the city of New York, for all rate periods on and after the effective date of section [30] 2 of part [B] P of chapter [59] 57 of the laws of [2016] 2017 through March 31, [2020] 2021 for patients outside the city of New York, and for all rate periods on and after the effective date of section [30] 2 of part [B] P of chapter [59] 57 of the laws of [2016] 2017 through March 31, [2020] 2021 for all services provided to persons...
under the age of twenty-one; provided, however, the commissioner of health, in consultation with the commissioner of alcoholism and substance abuse services and the commissioner of mental health, may require, as a condition of approval of such ambulatory behavioral health fees, that aggregate managed care expenditures to eligible providers meet the alternative payment methodology requirements as set forth in attachment I of the New York state medicaid section one thousand one hundred fifteen medicaid redesign team waiver as approved by the centers for medicare and medicaid services. The commissioner of health shall, in consultation with the commissioner of alcoholism and substance abuse services and the commissioner of mental health, waive such conditions if a sufficient number of providers, as determined by the commissioner, suffer a financial hardship as a consequence of such alternative payment methodology requirements, or if he or she shall determine that such alternative payment methodologies significantly threaten individuals access to ambulatory behavioral health services. Such waiver may be applied on a provider specific or industry wide basis. Further, such conditions may be waived, as the commissioner determines necessary, to comply with federal rules or regulations governing these payment methodologies. Nothing in this section shall prohibit managed care organizations and providers from negotiating different rates and methods of payment during such periods described, subject to the approval of the department of health. The department of health shall consult with the office of alcoholism and substance abuse services and the office of mental health in determining whether such alternative rates shall be approved. The commissioner of health may, in consultation with the commissioners of mental health and alcoholism and substance abuse services, promulgate regulations, including emergency regulations promulgated prior to October 1, 2013 that establish rates for behavioral health services, as are necessary to implement the provisions of this section. Rates promulgated under this section shall be included in the report required under section 45-c of part A of chapter 56 of the laws of 2013.

§ 4. Section 40 of chapter 266 of the laws of 1986, amending the civil practice law and rules and other laws relating to malpractice and professional medical conduct, as amended by section 4 of part M of chapter 57 of the laws of 2018, is amended to read as follows:

§ 40. The superintendent of financial services shall establish rates for policies providing coverage for physicians and surgeons medical malpractice for the periods commencing July 1, 1985 and ending June 30, 2020; provided, however, that notwithstanding any other provision of law, the superintendent shall not establish or approve any increase in rates for the period commencing July 1, 2009 and ending June 30, 2010. The superintendent shall direct insurers to establish segregated accounts for premiums, payments, reserves and investment income attributable to such premium periods and shall require periodic reports by the insurers regarding claims and expenses attributable to such periods to monitor whether such accounts will be sufficient to meet incurred claims and expenses. On or after July 1, 1989, the superintendent shall impose a surcharge on premiums to satisfy a projected deficiency that is attributable to the premium levels established pursuant to this section for such periods; provided, however, that such annual surcharge shall not exceed eight percent of the established rate until July 1, 2019, at which time and thereafter such surcharge shall not exceed twenty-five percent of the approved adequate rate, and that such annual surcharges shall continue for such period of time as shall be sufficient to satisfy such deficiency. The superintendent shall not impose such surcharge during the period commencing July 1, 2009 and ending June 30, 2010. On and after July 1, 1989, the surcharge prescribed by this
section shall be retained by insurers to the extent that they insured
physicians and surgeons during the July 1, 1985 through June 30, [2019]
2020 policy periods; in the event and to the extent physicians and
surgeons were insured by another insurer during such periods, all or a
pro rata share of the surcharge, as the case may be, shall be remitted
to such other insurer in accordance with rules and regulations to be
promulgated by the superintendent. Surcharges collected from physicians
and surgeons who were not insured during such policy periods shall be
apportioned among all insurers in proportion to the premium written by
each insurer during such policy periods; if a physician or surgeon was
insured by an insurer subject to rates established by the superintendent
during such policy periods, and at any time thereafter a hospital,
health maintenance organization, employer or institution is responsible
for responding in damages for liability arising out of such physician's
or surgeon's practice of medicine, such responsible entity shall also
remit to such prior insurer the equivalent amount that would then be
collected as a surcharge if the physician or surgeon had continued to
remain insured by such prior insurer. In the event any insurer that
provided coverage during such policy periods is in liquidation, the
property/casualty insurance security fund shall receive the portion of
surcharges to which the insurer in liquidation would have been entitled.
The surcharges authorized herein shall be deemed to be income earned for
the purposes of section 2303 of the insurance law. The superintendent,
in establishing adequate rates and in determining any projected defi-
ciency pursuant to the requirements of this section and the insurance
law, shall give substantial weight, determined in his discretion and
judgment, to the prospective anticipated effect of any regulations
promulgated and laws enacted and the public benefit of stabilizing
malpractice rates and minimizing rate level fluctuation during the peri-
od of time necessary for the development of more reliable statistical
experience as to the efficacy of such laws and regulations affecting
medical, dental or podiatric malpractice enacted or promulgated in 1985,
1986, by this act and at any other time. Notwithstanding any provision
of the insurance law, rates already established and to be established by
the superintendent pursuant to this section are deemed adequate if such
rates would be adequate when taken together with the maximum authorized
annual surcharges to be imposed for a reasonable period of time whether
or not any such annual surcharge has been actually imposed as of the
establishment of such rates.

8. Payment rates for managed long term care plan enrollees eligible for medical assistance. The commissioner shall establish payment rates for services provided to enrollees eligible under title XIX of the federal social security act. Such payment rates shall be subject to approval by the director of the division of the budget and shall reflect savings to both state and local governments when compared to costs which would be incurred by such program if enrollees were to receive comparable health and long term care services on a fee-for-service basis in the geographic region in which such services are proposed to be provided. Payment rates shall be risk-adjusted to take into account the characteristics of enrollees, or proposed enrollees, including, but not limited to: frailty, disability level, health and functional status, age, gender, the nature of services provided to such enrollees, and other factors as determined by the commissioner. The risk adjusted premiums may also be combined with disincentives or requirements designed to mitigate any incentives to obtain higher payment categories. In setting such payment rates, the commissioner shall consider costs borne by the managed care program to ensure actuarially sound and adequate rates of payment to ensure quality of care shall comply with all applicable laws and regulations, state and federal, including regulations as to actuarial soundness for medicaid managed care. Prior to each annual rate period and, to the extent practicable prior to the effective date of any change in law, regulation or other state or federal mandate impacting the cost of the managed care plans' operations or of the providers...
services, the commissioner shall provide an accounting of the component
cost (including wage and related labor compliance) and total costs
factored into the managed long term care plan rates, along with the
commissioner's and the independent actuary's determination of the actuar-
ial soundness and adequacy of such rates. Such accounting shall be
provided to managed long term care plans at least sixty days prior to
the start of the rate period and, for any changes during the rate peri-
od, at least sixty days prior to the effectiveness of such change, as
practicable. The determinations of actuarial soundness and adequacy of
the rates shall be further available to the plans' contracting provid-
ers. The commissioner shall provide for a streamlined and timely process
to pay adjusted rates to managed care plans, and the plans' service
providers, including increases for worker wages and related labor
compliance; provided, however, that to the extent not expressly
precluded by law, any new state requirement upon such plan or the plans'
service providers which imposes new costs shall be implemented only on

care services workers or any worker with direct patient care responsi-

§ 5-g. Paragraph (m) of subdivision 3 of section 461-l of the social services law, as added by section 2 of part B of chapter 57 of the laws of 2018, is amended to read as follows:

(m) Beginning April first, two thousand [twenty-three], twenty, additional assisted living program beds shall be approved on a case by case basis whenever the commissioner of health is satisfied that public need exists at the time and place and under circumstances proposed by the applicant.

§ 5-h. Workgroup on case mix adjustments for residential health care facilities. The commissioner of health shall convene and chair a workgroup on case mix adjustments to Medicaid rates of payment for residential health care facilities. The workgroup shall be comprised of residential health care facilities or representatives from such facilities, representatives from the statewide associations and other such experts on case mix as required by the commissioner. The workgroup shall review recent case mix data and related analyses conducted by the department, the department’s Minimum Data Set (MDS) census collection process and case mix adjustments authorized under subdivision 2-c of section twenty-eight hundred eight of the public health law. Such review shall seek to promote a higher degree of accuracy in the MDS data, reduce audit findings and target abuses. The workgroup shall offer recommendations on how to improve accuracy in the MDS census collection process, reduce audit findings and reduce or eliminate abusive practices. In developing its recommendations, the workgroup shall ensure that the census collection process and case mix adjustment continues to recognize the need to adjust rates for residential health care facilities that serve high-need residents. The workgroup shall also consider any changes in federal law and regulations relating to nursing home reimbursement, including adoption of the patient driven payment model, and administrative complexity in revising the census collection and rate promulgation processes. The commissioner and department of health shall be prohibited from reducing or recouping case mix adjustments for periods prior to the implementation of the workgroup recommendations; provided, such limitation shall not apply to audits by the Office of the Medicaid Inspector General, audits conducted by the department of health, or in cases of fraud or abuse. The workgroup shall report its recommendations no later than July first, two thousand nineteen. Such recommendations shall be adopted by the commissioner on a prospective basis and rely on assessment data submitted no earlier than such adoption; however, any rate adjustments based on the recommendations of the workgroup shall be implemented only after such adjustments are approved by an independent actuary, and in no event shall such adjustments result in a reduction in rates of over $122 million in state-share funds.

§ 5-i. Subdivision 31 of section 364-j of the social services law is amended by adding a new paragraph (b) to read as follows:

(b) Prior to any managed long-term care payment reduction related to personal care services, the commissioner shall promulgate regulations allowing utilization management of personal care services in accordance with a recipient’s plan of treatment that will realize corresponding cost reductions in personal care services. The regulations shall not be adopted, nor shall a related payment reduction occur, until it is determined by an independent actuary that the regulations will achieve cost reductions equal to the managed long-term care payment reduction.
§ 6. This act shall take effect immediately and shall be deemed to have been in full force and effect on and after April 1, 2019; provided, however, that the amendments to subdivision 8 of section 4403-f of the public health law made by section five-a of this act shall not affect the repeal of such subdivision and shall be deemed to be repealed there-with; and provided further, however, that the amendments to subdivision 31 of section 364-j of the social services law made by sections five-e and five-i of this act shall not affect the repeal of such section and shall be deemed repealed therewith.

The superintendent also may require the filing of quarterly or other statements, which shall be in such form and shall contain such matters as the superintendent shall prescribe.

(c) All information disclosed by a pharmacy benefit manager shall be deemed confidential and not subject to disclosure unless the superintendent determines that such disclosure is in the public interest, or is necessary to carry out this article or to allow the department to perform examinations or investigations authorized by law.

§ 2905. Acting without a license. (a) No person, firm, association, corporation or other entity may act as a pharmacy benefit manager on or after January first, two thousand twenty-one without having authority to do so by virtue of a license issued in force pursuant to the provisions of this article.

(b) No health insurer may pay any fee or other compensation to any person, firm, association, corporation or other entity for performing pharmacy benefit management services on or after January first, two thousand twenty-one unless the person, firm, association, corporation or other entity is licensed as a pharmacy benefit manager in accordance with this article.

(c) Any person, firm, association, corporation or other entity that violates this section shall, in addition to any other penalty provided by law, be subject to a penalty of the greater of (1) two thousand dollars for the first violation and five thousand dollars for each subsequent violation or (2) the aggregate gross receipts attributable to all violations.

§ 2906. Licensing of a pharmacy benefit manager. (a) The superintendent may issue a pharmacy benefit manager's license to any person, firm, association or corporation who or that has complied with the requirements of this article, including regulations promulgated by the superintendent. The superintendent, in consultation with the commissioner of health, may establish, by regulation, minimum standards for the issuance of a license to a pharmacy benefit manager.

(b) The minimum standards established under this subsection may address, without limitation:

(1) conflicts of interest between pharmacy benefit managers and health insurers;

(2) deceptive practices in connection with the performance of pharmacy benefit management services;

(3) anti-competitive practices in connection with the performance of pharmacy benefit management services;

(4) unfair claims practices in connection with the performance of pharmacy benefit management services; and

(5) protection of consumers.

(c)(1) Any such license issued to a firm or association shall authorize all of the members of the firm or association and any designated employees to act as pharmacy benefit managers under the license, and all such persons shall be named in the application and supplements thereto.

(2) Any such license issued to a corporation shall authorize all of the officers and any designated employees and directors thereof to act as pharmacy benefit managers on behalf of such corporation, and all such persons shall be named in the application and supplements thereto.

(3) For each business entity, the officer or officers and director or directors named in the application shall be designated responsible for the business entity's compliance with the insurance laws, rules and regulations of this state.

(d)(1) Before a pharmacy benefit manager's license shall be issued or renewed, the prospective licensee shall properly file in the office of
the superintendent a written application therefor in such form or forms
and supplements thereto as the superintendent prescribes, and pay a fee
of two thousand dollars for each year or fraction of a year in which a
license shall be valid.

(2) Every pharmacy benefit manager's license issued to a business
entity pursuant to this section shall expire on the thirtieth day of
November of even-numbered years. Every license issued pursuant to this
section to an individual pharmacy benefit manager who was born in an
odd-numbered year, shall expire on the individual's birthday in each
odd-numbered year. Every license issued pursuant to this section to an
individual pharmacy benefit manager who was born in an even-numbered
year, shall expire on the individual's birthday in each even-numbered
year. Every license issued pursuant to this section may be renewed for
the ensuing period of twenty-four months upon the filing of an application in conformity with this subsection.

(e)(1) If an application for a renewal license shall have been filed
with the superintendent before October first of the year of expiration,
then the license sought to be renewed shall continue in full force and
effect either until the issuance by the superintendent of the renewal
license applied for or until five days after the superintendent shall
have refused to issue such renewal license and given notice of such
refusal to the applicant.

(2) Before refusing to renew any license pursuant to this section for
which a renewal application has been filed pursuant to paragraph one of
this subsection, the superintendent shall notify the applicant of the
superintendent's intention to do so and shall give such applicant a
hearing.

(f) The superintendent may refuse to issue a pharmacy benefit manage-
er's license if, in the superintendent's judgment, the applicant or any
member, principal, officer or director of the applicant, is not trust-
worthy and competent to act as or in connection with a pharmacy benefit
manager, or that any of the foregoing has given cause for revocation or
suspension of such license, or has failed to comply with any prerequi-
site for the issuance of such license.

(g) Licensees and applicants for a license under this section shall be
subject to examination by the superintendent as often as the superinten-
dent may deem it expedient. The superintendent may promulgate regu-
lations establishing methods and procedures for facilitating and verify-
ing compliance with the requirements of this section and such other
regulations as necessary.

(h) The superintendent may issue a replacement for a currently
in-force license that has been lost or destroyed. Before the replacement
license shall be issued, there shall be on file in the office of the
superintendent a written application for the replacement license,
affirming under penalty of perjury that the original license has been
lost or destroyed, together with a fee of two hundred dollars.

§ 2907. Revocation or suspension of a registration or license of a
pharmacy benefit manager. (a) The superintendent may refuse to renew,
may revoke, or may suspend for a period the superintendent determines
the registration or license of any pharmacy benefit manager if, after
notice and hearing, the superintendent determines that the registrant or
licensee or any member, principal, officer, director, or controlling
person of the registrant or licensee, has:

(1) violated any insurance laws, section two hundred eighty-a of the
public health law, or violated any regulation, subpoena or order of the
superintendent or of another state's insurance commissioner, or has
violated any law in the course of his or her dealings in such capacity;
(2) provided materially incorrect, materially misleading, materially
incomplete or materially untrue information in the registration or
license application;
(3) obtained or attempted to obtain a registration or license through
misrepresentation or fraud;
(4)(A) used fraudulent, coercive or dishonest practices;
(B) demonstrated incompetence;
(C) demonstrated untrustworthiness; or
(D) demonstrated financial irresponsibility in the conduct of business
in this state or elsewhere;
(5) improperly withheld, misappropriated or converted any monies or
properties received in the course of business in this state or else-
where;
(6) intentionally misrepresented the terms of an actual or proposed
insurance contract;
(7) been convicted of a felony;
(8) admitted or been found to have committed any insurance unfair
trade practice or fraud;
(9) had a pharmacy benefit manager registration or license, or its
equivalent, denied, suspended or revoked in any other state, province,
district or territory;
(10) failed to pay state income tax or comply with any administrative
or court order directing payment of state income tax; or
(11) ceased to meet the requirements for registration or licensure
under this article.
(b) Before revoking or suspending the registration or license of any
pharmacy benefit manager pursuant to the provisions of this article, the
superintendent shall give notice to the registrant or licensee and to
every sub-licensee and shall hold, or cause to be held, a hearing not
less than ten days after the giving of such notice.
(c) If a registration or license pursuant to the provisions of this
article is revoked or suspended by the superintendent, then the super-
intendent shall forthwith give notice to the registrant or licensee.
(d) The revocation or suspension of any registration or license pursu-
ant to the provisions of this article shall terminate forthwith such
registration or license and the authority conferred thereby upon all
sub-licensees. For good cause shown, the superintendent may delay the
effective date of a revocation or suspension to permit the registrant or
licensee to satisfy some or all of its contractual obligations to
perform pharmacy benefit management services in the state.
(e)(1) No individual, corporation, firm or association whose registra-
tion or license as a pharmacy benefit manager has been revoked pursuant
to subsection (a) of this section, and no firm or association of which
such individual is a member, and no corporation of which such individual
is an officer or director, and no controlling person of the registrant
or licensee shall be entitled to obtain any registration or license
under the provisions of this article for a period of one year after such
revocation, or, if such revocation be judicially reviewed, for one year
after the final determination thereof affirming the action of the super-
intendent in revoking such license.
(2) If any such registration or license held by a firm, association or
corporation be revoked, no member of such firm or association and no
officer or director of such corporation or any controlling person of the
registrant or licensee shall be entitled to obtain any registration or
license, or to be named as a sub-licensee in any such license, under this article for the same period of time, unless the superintendent determines, after notice and hearing, that such member, officer or director was not personally at fault in the matter on account of which such registration or license was revoked.

(f) If any registered or licensed pharmacy benefit manager or any person aggrieved shall file with the superintendent a verified complaint setting forth facts tending to show sufficient ground for the revocation or suspension of any pharmacy benefit manager's registration or license, then the superintendent shall, after notice and a hearing, determine whether such registration or license shall be suspended or revoked.

(g) The superintendent shall retain the authority to enforce the provisions of and impose any penalty or remedy authorized by this chapter against any person or entity who is under investigation for or charged with a violation of this chapter, even if the person's or entity's registration or license has been surrendered, or has expired or has lapsed by operation of law.

(h) A registrant or licensee subject to this article shall report to the superintendent any administrative action taken against the registrant or licensee in another jurisdiction or by another governmental agency in this state within thirty days of the final disposition of the matter. This report shall include a copy of the order, consent to order or other relevant legal documents.

(i) Within thirty days of the initial pretrial hearing date, a registrant or licensee subject to this article shall report to the superintendent any criminal prosecution of the registrant or licensee taken in any jurisdiction. The report shall include a copy of the initial complaint filed, the order resulting from the hearing and any other relevant legal documents.

§ 2908. Penalties for violations. (a) The superintendent, in lieu of revoking or suspending the registration or license of a registrant or licensee in accordance with the provisions of this article, may in any one proceeding by order, require the registrant or licensee to pay to the people of this state a penalty in a sum not exceeding the greater of (1) two thousand dollars for each offense and five thousand dollars for each subsequent violation or (2) the aggregate gross receipts attributable to all offenses.

(b) Upon the failure of such a registrant or licensee to pay the penalty ordered pursuant to subsection (a) of this section within twenty days after the mailing of the order, postage prepaid, registered, and addressed to the last known place of business of the licensee, unless the order is stayed by an order of a court of competent jurisdiction, the superintendent may revoke the registration or license of the registrant or licensee or may suspend the same for such period as the superintendent determines.

§ 2909. Stay or suspension of superintendent's determination. The commencement of a proceeding under article seventy-eight of the civil practice law and rules, to review the action of the superintendent in suspending or revoking or refusing to renew any certificate under this article, shall stay such action of the superintendent for a period of thirty days. Such stay shall not be extended for a longer period unless the court shall determine, after a preliminary hearing of which the superintendent is notified forty-eight hours in advance, that a stay of the superintendent's action pending the final determination or further order of the court will not unduly injure the interests of the people of the state.
§ 2910. Revoked registrations or licenses. (a)(1) No person, firm, association, corporation or other entity subject to the provisions of this article whose registration or license under this article has been revoked, or whose registration or license to engage in the business of pharmacy benefit management in any capacity has been revoked by any other state or territory of the United States shall become employed or appointed by a pharmacy benefit manager as an officer, director, manager, controlling person or for other services, without the prior written approval of the superintendent, unless such services are for maintenance or are clerical or ministerial in nature.

(2) No person, firm, association, corporation or other entity subject to the provisions of this article shall knowingly employ or appoint any person or entity whose registration or license issued under this article has been revoked, or whose registration or license to engage in the business of pharmacy benefit management in any capacity has been revoked by any other state or territory of the United States, as an officer, director, manager, controlling person or for other services, without the prior written approval of the superintendent, unless such services are for maintenance or are clerical or ministerial in nature.

(3) No corporation or partnership subject to the provisions of this article shall knowingly permit any person whose registration or license issued under this article has been revoked, or whose registration or license to engage in the business of pharmacy benefit management in any capacity has been revoked by any other state, or territory of the United States, to be a shareholder or have an interest in such corporation or partnership, nor shall any such person become a shareholder or partner in such corporation or partnership, without the prior written approval of the superintendent.

(b) The superintendent may approve the employment, appointment or participation of any such person whose registration or license has been revoked:

(1) if the superintendent determines that the duties and responsibilities of such person are subject to appropriate supervision and that such duties and responsibilities will not have an adverse effect upon the public, other registrants or licensees, or the registrant or licensee proposing employment or appointment of such person; or

(2) if such person has filed an application for reregistration or relicensing pursuant to this article and the application for reregistration or relicensing has not been approved or denied within one hundred twenty days following the filing thereof, unless the superintendent determines within the said time that employment or appointment of such person by a registrant or licensee in the conduct of a pharmacy benefit management business would not be in the public interest.

(c) The provisions of this section shall not apply to the ownership of shares of any corporation registered or licensed pursuant to this article if the shares of such corporation are publicly held and traded in the over-the-counter market or upon any national or regional securities exchange.

§ 2911. Change of address. A registrant or licensee under this article shall inform the superintendent by a means acceptable to the superintendent of a change of address within thirty days of the change.

§ 2912. Applicability of other laws. Nothing in this article shall be construed to exempt a pharmacy benefit manager from complying with the provisions of articles twenty-one and forty-nine of this chapter and article forty-nine of the public health law or any other provision of this chapter or the financial services law.
§ 2913. Assessments. Pharmacy benefit managers that file a registration with the department or are licensed by the department shall be assessed by the superintendent for the operating expenses of the department that are solely attributable to regulating such pharmacy benefit managers in such proportions as the superintendent shall deem just and reasonable.

§ 2914. Duty, accountability and transparency. (a) The pharmacy benefit manager shall have a fiduciary relationship with and obligation to the health insurer and shall perform pharmacy benefit management services with care, skill, prudence, diligence, and professionalism.

(b) All funds received by the pharmacy benefit manager in relation to providing pharmacy benefit management services shall be received by the pharmacy benefit manager in trust for the health plan and shall be used or distributed only pursuant to the pharmacy benefit manager's contract, or other terms in the absence of a contract, with the health insurer or applicable law, except for any administrative fee or payment expressly provided for in the contract, or other terms in the absence of a contract, between the pharmacy benefit manager and the health insurer or provider to compensate the pharmacy benefit manager for its services.

(c) The pharmacy benefit manager shall periodically account to the health insurer for all funds received by the pharmacy benefit manager. The health plan or provider shall have access to all financial and utilization information of the pharmacy benefit manager in relation to pharmacy benefit management services provided to the health plan or provider.

(d) The pharmacy benefit manager shall disclose in writing to the health insurer the terms and conditions of any contract or arrangement between the pharmacy benefit manager and any party relating to pharmacy benefit management services provided to the health insurer.

(e) The pharmacy benefit manager shall disclose in writing to the health insurer any activity, policy, practice, contract or arrangement of the pharmacy benefit manager that directly or indirectly presents any conflict of interest with the pharmacy benefit manager's relationship with or obligation to the health insurer.

(f) Any information required to be disclosed by a pharmacy benefit manager to a health insurer under this section that is reasonable designated by the pharmacy benefit manager as proprietary or trade secret information shall be kept confidential by the health insurer, except as required or permitted by law, including disclosure necessary to prosecute or defend any legitimate legal claim or cause of action.

(g) The superintendent shall establish, by regulation, minimum standards for pharmacy benefit management services which shall address the elimination of conflicts of interest between pharmacy benefit managers and health insurers; and the elimination of deceptive practices, anti-competitive practices, and unfair claims practices.

§ 2. Section 280-a of the public health law is amended by adding a new subdivision 5 to read as follows:

5. A pharmacy benefit manager may not substitute or cause the substituting of one prescription drug for another in dispensing a prescription or alter or cause the altering of the term of a prescription, except with approval of the prescriber or as explicitly required or permitted by law.

Each component is wholly contained within a Subpart identified as Subparts A through F. The effective date for each particular provision contained within such Subpart is set forth in the last section of such Subpart. Any provision in any section contained within a Subpart, including the effective date of the Subpart, which makes a reference to a section "of this act," when used in connection with that particular component, shall be deemed to mean and refer to the corresponding section of the Subpart in which it is found. Section five of this Part sets forth the general effective date of this Part.

SUBPART A

Section 1. Section 3221 of the insurance law is amended by adding a new subsection (t) to read as follows:

(t) (1) Any insurer that delivers or issues for delivery in this state hospital, surgical or medical expense group policies in the small group or large group market shall offer to any employer in this state all such policies in the applicable market, and shall accept at all times throughout the year any employer that applies for any of those policies.

(2) The requirements of paragraph one of this subsection shall apply with respect to an employer that applies for coverage either directly from the insurer or through an association or trust to which the insurer has issued coverage and in which the employer participates.

(1) This section shall also apply to policies issued to a group defined in subsection (c) of section four thousand two hundred thirty-five, including but not limited to an association or trust of employers, if the group includes one or more member employers or other member groups which have [fifty] one hundred or fewer employees or members exclusive of spouses and dependents. For policies issued or renewed on or after January first, two thousand fourteen, if the group includes one or more member small group employers eligible for coverage subject to this section, then such member employers shall be classified as small groups for rating purposes and the remaining members shall be rated consistent with the rating rules applicable to such remaining members pursuant to paragraph two of this subsection.

§ 3. Subsections (h) and (i) of section 3232 of the insurance law are REPEALED.

§ 4. Subsections (f) and (g) of section 3232 of the insurance law, as added by chapter 219 of the laws of 2011, are amended to read as follows:

However, such a plan may permit a limited number of selections by employees if the selections offered utilize consistent plans of coverage for individual group members so that the resulting plans of coverage are reasonable. (E) If an external appeal agent overturns the insurer's denial of a standard exception request under paragraph two of this subsection, then the insurer shall provide coverage of the non-formulary prescription drug for the duration of the prescription, including refills. If an external appeal agent overturns the insurer's denial of an expedited exception request under paragraph three of this subsection, then the insurer shall provide coverage of the non-formulary prescription drug for the duration of the exigent circumstances.

PART R

Section 1. Legislative findings and intent. The legislature finds that maternal mortality and morbidity is a serious public health concern and has a serious family and societal impact. New York state has among the highest maternal mortality rates in the country and racial disparities remain significant. The U.S. Centers for Disease Control and Prevention has determined that a regular process for professional, multi-disciplinary, confidential review of all maternal deaths can help identify the
causes of maternal mortality, and those findings can lead to clinical
and social change that can help prevent maternal mortality. The same is
true for severe maternal morbidity. Confidentiality is important to
ensure that full information is made available in the review process to
maximize protection of maternal health.
Section 3 of article 17 of the state constitution states: "The
protection and promotion of the health of the inhabitants of the state
are matters of public concern and provision therefor shall be made by
the state and by such of its subdivisions and in such manner, and by
such means as the legislature shall from time to time determine." The
legislature finds that the creation of a state maternal mortality review
board, and recognition and protection of a city of New York maternal
mortality review board, are a matter of state concern and an important
exercise of the legislature's constitutional mandate to protect the
public health.
§ 2. The public health law is amended by adding a new section 2509 to
read as follows:
§ 2509. Maternal mortality review board. 1. (a) There is hereby estab-
lished in the department the maternal mortality review board for the
purpose of reviewing maternal deaths and maternal morbidity and develop-
ing and disseminating findings, recommendations, and best practices to
contribute to the prevention of maternal mortality and morbidity. The
board shall assess the cause of death, factors leading to death and
preventability for each maternal death reviewed and, in the discretion
of the board, cases of severe maternal morbidity, and shall develop and
disseminate strategies for reducing the risk of maternal mortality and
morbidity, including risk resulting from racial, economic, or other
disparities. The commissioner may delegate the authority to conduct
maternal mortality reviews.
(b) The commissioner may enter into an agreement with the city of New
York providing:
(i) that the functions of the state board relating to maternal deaths
and severe maternal morbidity occurring within the city of New York
shall be conducted by the city board;
(ii) the city board shall provide to the state board the results of
its reviews, relevant information in the possession of the city board,
and the recommendations of the city board; and
(iii) the department and the state board shall provide information and
assistance to the city board for the performance of its functions.
(c) Nothing in this section shall prevent the city of New York from
establishing, without an agreement with the commissioner, a board relat-
ing to maternal deaths and severe maternal morbidity occurring within
the city of New York.
2. As used in this section, unless the context requires otherwise:
(a) "Advisory council" and "council" mean the advisory council on
maternal mortality and morbidity, established under this section.
(b) "Board" means a maternal mortality review board established by
this section, referred to in this section as the "state board", or a

(a) The members of the state board shall be comprised of multidisciplinary experts in the field of maternal mortality, women's health and public health, and shall include health care professionals or other experts who serve and are representative of the diversity of the women and mothers in medically underserved areas of the state or areas of the state with disproportionately high occurrences of maternal mortality or morbidity.

(b) The state board shall be composed of at least fifteen members, all of whom shall be appointed by the commissioner.

(c) The terms of the state board members shall be three years. The commissioner may choose to reappoint state board members to additional three year terms.

(d) A majority of the appointed membership of the state board, no less than three, shall constitute a quorum.

(e) When any member of the state board fails to attend three consecutive regular meetings, unless such absence is for good cause, that membership may be deemed vacant for purposes of the appointment of a successor.

(f) Meetings of the state board shall be held at least twice a year but may be held more frequently as deemed necessary, subject to request of the department.

(g) Members of the state and city boards shall be indemnified under section seventeen of the public officers law or section fifty-k of the general municipal law, as the case may be.

(h) Members of the state board shall not be compensated for their participation on the board but shall receive reimbursement for their ordinary and necessary expenses of participation.

(i) Membership on a board shall not disqualify any person from holding any public office or employment.

4. (a) The commissioner and the city commissioner, as the case may be, may request and shall receive upon request from any department, division, board, bureau, commission, local health departments or other agency of the state or political subdivision thereof or any public authority, as well as hospitals established pursuant to article twenty-eight of this chapter, birthing facilities, medical examiners, coroners and coroner physicians and any other facility providing services associated with maternal mortality, such information, including, but not limited to, death records, medical records, autopsy reports, toxicology reports, hospital discharge records, birth records and any other information that will help the department under this section to properly carry out its functions, powers and duties.

(b) The commissioner and the city commissioner shall receive and may solicit voluntary information, including oral or written statements, relating to any maternal death and case of severe maternal morbidity, from any family member or other interested party (including the patient in a case of severe maternal morbidity) relating to any case that may come before the board. Oral statements received under this paragraph shall be transcribed or summarized in writing. The commissioner and the city commissioner shall transmit that information to the board considering the case.

(c) Before transmitting any information to the board, the commissioner or the city commissioner shall remove all personal identifying information of the woman, health care practitioner or practitioners or anyone else individually named in such information, as well as the hospital or
facility that treated the woman, and any other information such as
géographic location that may inadvertently identify the woman, practi-
tioner or facility. This paragraph shall not preclude the transmitting
of information to the board that is reasonably necessary to enable the
board to perform an appropriate review under this section.

5. Each board:
   (a) shall make and report findings and recommendations to the commis-
sioner or city commissioner, as the case may be, regarding the cause of
death, factors leading to death, and preventability of each maternal
death case, and each case of severe maternal morbidity reviewed by the
board, by reviewing relevant information for each case in the state or
the city of New York, as the case may be, and consulting with experts as
needed to evaluate the information for each death; and shall provide
such findings and recommendations, including best practices and strate-
gies for reducing the risk of maternal mortality and morbidity, to the
advisory council; provided that material provided to the advisory coun-
cil shall not include any information that would be confidential under
this section;
   (b) shall develop recommendations to the commissioner or city commis-
sioner, as the case may be, for areas of focus, including issues of
severe maternal morbidity and issues of racial, economic or other
disparities in maternal outcomes;
   (c) may, in addition to the findings and recommendations made under
this subdivision, and consistent with all applicable confidentiality
protections, bring any particular matter to the attention of the commis-
sioner or the city commissioner;
   (d) shall issue a report on its findings and recommendations every two
years, and may also issue reports more frequently. The reports shall be
public documents; and
   (e) may request and shall receive the assistance of the commissioner
and the city commissioner in carrying out its functions.

6. The commissioner and the city commissioner and the state and city
boards shall each keep confidential any information collected or
received under this section that includes personal identifying informa-
tion of the woman, health care practitioner or practitioners or anyone
else individually named in such information, as well as the hospital or
facility that treated the woman, and any other information such as
geographic location that may inadvertently identify the woman, practi-
tioner or facility, and shall use the information provided or received
under this section solely for the purposes of improvement of the quality
of health care of women and to prevent maternal mortality and morbidity.
This subdivision shall not preclude the transmitting of information to
the board that is reasonably necessary to enable the board to perform an
appropriate review under this section. All records received, meetings
conducted, reports and records made and maintained and all books and
papers obtained by the board shall be confidential and shall not be made
open or available, including under article six of the public officers
law, and shall be limited to board members as well as those authorized
by the commissioner or city commissioner. Such information shall not be
discoverable or admissible as evidence in any action in any court or
before any other tribunal, board, agency or person.

7. The commissioner and the city commissioner, within their respective
legal authority, may use the recommendations and findings of the boards
to develop guidance and other actions relating to best practices, and
shall disseminate information relating to that guidance and other
actions to appropriate health care providers.
8. (a) There is hereby established in the department an advisory council on maternal mortality and morbidity.
(b) The advisory council:
(i) may review the findings of the boards;

(v) may request and shall receive the assistance of the commissioner, the city commissioner, and the boards in carrying out its functions.
(c) The advisory council shall consist of at least twenty members, to be determined by the commissioner. The commissioner and the city commissioner shall each appoint half of the members of the council. The commissioner shall appoint the chair of the council.
(d) The members of the council shall be comprised of multidisciplinary experts and lay persons knowledgeable in the field of maternal mortality, women’s health and public health and shall include members who serve and are representative of the diversity of the women and mothers in medically underserved areas of the state or areas of the state with disproportionately high occurrences of maternal mortality or morbidity.
(e) The terms of the council members shall be three years. The appointing official may choose to reappoint council members to additional three-year terms. Vacancies on the council shall be filled by appointment by the appointing official. A majority of the appointed membership of the council shall constitute a quorum. When any member of the council fails to attend three consecutive regular meetings, unless such absence is for good cause, that membership may be deemed vacant for purposes of the appointment of a successor.
(f) Meetings of the council shall be held at least twice a year.
(g) Members of the council shall be indemnified under section seventeen of the public officers law. Members of the council shall not be compensated for their participation on the council but shall receive reimbursement for their ordinary and necessary expenses of participation. [Coverage for applied behavior analysis shall be subject to a maximum benefit of six hundred eighty hours of treatment per policy or calendar year per covered individual.] This paragraph shall not be construed as limiting the benefits that are otherwise available to an individual under the policy, provided however that such policy shall not contain any limitations on visits that are solely applied to the treatment of autism spectrum disorder. No insurer shall terminate coverage or refuse to deliver, execute, issue, amend, adjust, or renew coverage to an individual solely because the individual is diagnosed with autism spectrum disorder or has received treatment for autism spectrum disorder. Coverage shall be subject to utilization review and external appeals of health care services pursuant to article forty-nine of this chapter as well as[,] case management[,] and other managed care provisions.

(I) The criteria for medical necessity determinations under the policy with respect to autism spectrum disorder benefits shall be made avail-
able by the insurer to any insured, prospective insured, or in-network provider upon request.

(J) For purposes of this paragraph:
(i) "financial requirement" means deductible, copayments, coinsurance and out-of-pocket expenses;
(ii) "predominant" means that a financial requirement or treatment limitation is the most common or frequent of such type of limit or requirement; and
(iii) "treatment limitation" means limits on the frequency of treatment, number of visits, days of coverage, or other similar limits on the scope or duration of treatment and includes nonquantitative treatment limitations such as: medical management standards limiting or excluding benefits based on medical necessity, or based on whether the treatment is experimental or investigational; formulary design for prescription drugs; network tier design; standards for provider admission to participate in a network, including reimbursement rates; methods for determining usual, customary, and reasonable charges; fail-first or step therapy protocols; exclusions based on failure to complete a course of treatment; and restrictions based on geographic location, facility type, provider specialty, and other criteria that limit the scope or duration of benefits for services provided under the policy.

Prior to discharge, the facility shall provide the patient and the insurer with a written discharge plan which shall describe arrangements for additional services needed following discharge from the inpatient facility as determined using the evidence-based and peer-reviewed clinical review tool utilized by the insurer which is designated by the office of alcoholism and substance abuse services. Prior to discharge, the facility shall indicate to the insurer whether services included in the discharge plan are secured or determined to be reasonably available. Any utilization review of treatment provided under this subparagraph may include a review of all services provided during such inpatient treatment, including all services provided during the first [fourteen] twenty-eight days of such inpatient treatment. Provided, however, the insurer shall only deny coverage for any portion of the initial [fourteen] twenty-eight day inpatient treatment on the basis that such treatment was not medically necessary if such inpatient treatment was contrary to the evidence-based and peer reviewed clinical review tool utilized by the insurer which is designated by the office of alcoholism and substance abuse services. An insured shall not have any financial obligation to the facility for any treatment under this subparagraph other than any copayment, coinsurance, or deductible otherwise required under the policy.

(iv) "substance use disorder" shall have the meaning set forth in the
most recent edition of the diagnostic and statistical manual of mental

financial requirements or treatment limitations to outpatient substance
use disorder benefits that are more restrictive than the predominant
financial requirements and treatment limitations applied to substantial-

such coverage shall be provided consistent with the federal Paul Well-
stone and Pete Domenici Mental Health Parity and Addiction Equity Act of
2008 (29 U.S.C. § 1185a).]

York state [certified] that are licensed, certified or otherwise author-

licensed by such office as outpatient clinics or medically supervised
ambulatory] to provide outpatient substance [use programs] abuse disorder services and, in other states, to those which are accredited by the
joint commission as alcoholism or chemical dependence substance abuse
treatment programs and are similarly licensed, certified, or otherwise

within [forty-eight hours] two business days. The facility shall perform
clinical assessment of the patient at each visit, including [the] peri-

and peer reviewed clinical review tool utilized by the insurer which is
designated by the office of alcoholism and substance abuse services and
appropriate to the age of the patient, to ensure that the outpatient
treatment is medically necessary for the patient. Any utilization
review of the treatment provided under this subparagraph may include a
review of all services provided during such outpatient treatment,
including all services provided during the first [two] four weeks of
continuous treatment, not to exceed [fourteen] twenty-eight visits, of
such outpatient treatment. Provided, however, the insurer shall only
deny coverage for any portion of the initial [two] four weeks of contin-

tient treatment on the basis that such treatment was not medically
necessary if such outpatient treatment was contrary to the evidence-
based and peer reviewed clinical review tool utilized by the insurer
which is designated by the office of alcoholism and substance abuse
services. An insured shall not have any financial obligation to the
facility for any treatment under this subparagraph other than any copay-

(F) The criteria for medical necessity determinations under the policy
with respect to outpatient substance use disorder benefits shall be made
available by the insurer to any insured, prospective insured, or in-net-

is experimental or investigational; formulary design for prescription
drugs; network tier design; standards for provider admission to partic-

ning usual, customary, and reasonable charges; fail-first or step therapy
protocols; exclusions based on failure to complete a course of treat-
ment; and restrictions based on geographic location, facility type,
provider specialty, and other criteria that limit the scope or duration

independent standard of current medical practice such as the interna-

(iii) serious dysfunction of any bodily organ or part of such person;

(iv) serious disfigurement of such person; or

(C) Coverage provided under this paragraph may be subject to copayments, coinsurance, and annual deductibles that are consistent with those imposed on other benefits within the policy; provided, however, no policy shall impose an additional copayment or coinsurance on an insured who received an emergency supply of medication and then received up to a thirty day supply of the same medication in the same thirty day period in which the emergency supply of medication was dispensed. This subparagraph shall not preclude the imposition of a copayment or coinsurance on the initial emergency supply of medication in an amount that is less than the copayment or coinsurance otherwise applicable to a thirty day supply of such medication, provided that the total sum of the copayments or coinsurance for an entire thirty day supply of the medication does not exceed the copayment or coinsurance otherwise applicable to a thirty day supply of such medication.]}

and (H) are added to read as follows:

(E) This subparagraph shall apply to facilities in this state that are

participating in the insurer's provider network. Coverage provided under
this paragraph shall not be subject to preauthorization. Coverage
provided under this paragraph shall not be subject to concurrent review for the first [two] four weeks of continuous treatment, not to exceed [fourteen] twenty-eight visits, provided the facility notifies the insurer of both the start of treatment and the initial treatment plan within [forty-eight hours] two business days. The facility shall perform clinical assessment of the patient at each visit, including [the] periodic consultation with the insurer at or just prior to the fourteenth day of treatment to ensure that the facility is using the evidence-based and peer reviewed clinical review tool utilized by the insurer which is designated by the office of alcoholism and substance abuse services and appropriate to the age of the patient, to ensure that the outpatient treatment is medically necessary for the patient. Any utilization review of the treatment provided under this subparagraph may include a review of all services provided during such outpatient treatment, including all services provided during the first [two] four weeks of continuous treatment, not to exceed [fourteen] twenty-eight visits, of such outpatient treatment. Provided, however, the insurer shall only deny coverage for any portion of the initial [two] four weeks of continuous treatment, not to exceed [fourteen] twenty-eight visits, for outpatient treatment on the basis that such treatment was not medically necessary if such outpatient treatment was contrary to the evidence-based and peer reviewed clinical review tool utilized by the insurer which is designated by the office of alcoholism and substance abuse services. An insured shall not have any financial obligation to the facility for any treatment under this subparagraph other than any copayment, coinsurance, or deductible otherwise required under the policy.

(F) The criteria for medical necessity determinations under the policy with respect to outpatient substance use disorder benefits shall be made available by the insurer to any insured, prospective insured, or in-network provider upon request.

(iv) "substance use disorder" shall have the meaning set forth in the most recent edition of the diagnostic and statistical manual of mental disorders or the most recent edition of another generally recognized independent standard of current medical practice such as the international classification of diseases.
(H) An insurer shall provide coverage under this paragraph, at a mini-

drugs for medication for the treatment of a substance use disorder shall
include immediate access, without prior authorization, [to a five day
emergency supply] to the formulary forms of prescribed medications
covered under the policy for the treatment of substance use disorder
[where an emergency condition exists], including a prescribed drug or
medication associated with the management of opioid withdrawal and/or
stabilization, except where otherwise prohibited by law. Further, cover-
age [of an emergency supply] without prior authorization shall include
formulary forms medication for opioid overdose reversal otherwise
covered under the policy prescribed or dispensed to an individual
covered by the policy.

[(B) For purposes of this paragraph, an "emergency condition" means a
substance use disorder condition that manifests itself by acute symptoms
of sufficient severity, including severe pain or the expectation of
severe pain, such that a prudent layperson, possessing an average know-
ledge of medicine and health, could reasonably expect the absence of
immediate medical attention to result in:

(i) placing the health of the person afflicted with such condition in
serious jeopardy, or in the case of a behavioral condition, placing the
health of such person or others in serious jeopardy;

(ii) serious impairment to such person's bodily functions;

(iii) serious dysfunction of any bodily organ or part of such person;

(iv) serious disfigurement of such person; or

(v) a condition described in clause (i), (ii), or (iii) of section
1867(e)(1)(A) of the Social Security Act.

(C) Coverage provided under this paragraph may be subject to copay-
ments, coinsurance, and annual deductibles that are consistent with
those imposed on other benefits within the policy; provided, however, no
policy shall impose an additional copayment or coinsurance on an insured
who received an emergency supply of medication and then received up to a
thirty day supply of the same medication in the same thirty day period
in which the emergency supply of medication was dispensed. This subpara-
graph shall not preclude the imposition of a copayment or coinsurance on
the initial emergency supply of medication in an amount that is less
than the copayment or coinsurance otherwise applicable to a thirty day
supply of such medication, provided that the total sum of the copay-
ments or coinsurance for an entire thirty day supply of the medication does
not exceed the copayment or coinsurance otherwise applicable to a thirty

medical, major medical or similar comprehensive-type coverage shall
provide coverage for the screening, diagnosis and treatment of autism
spectrum disorder in accordance with this paragraph and shall not
exclude coverage for the screening, diagnosis or treatment of medical
conditions otherwise covered by the policy because the individual is
diagnosed with autism spectrum disorder. Such coverage may be subject to
annual deductibles, copayments and coinsurance as may be deemed appro-
priate by the superintendent and shall be consistent with those imposed
on other benefits under the group or blanket policy. [Coverage for
applied behavior analysis shall be subject to a maximum benefit of six
hundred eighty hours of treatment per policy or calendar year per
covered individual.] This paragraph shall not be construed as limiting
the benefits that are otherwise available to an individual under the
group or blanket policy, provided however that such policy shall not
contain any limitations on visits that are solely applied to the treat-
ment of autism spectrum disorder. No insurer shall terminate coverage or
refuse to deliver, execute, issue, amend, adjust, or renew coverage to
an individual solely because the individual is diagnosed with autism
spectrum disorder or has received treatment for autism spectrum disor-

regulations promulgated by the superintendent in consultation with the
commissioners of health and education.]

are more restrictive than the predominant financial requirements and
treatment limitations applied to substantially all medical and surgical
