# MDS Changes for Your Interdisciplinary Team

Maureen McCarthy
President & CEO | Celtic Consulting LLC

The clock is ticking; the MDS changes will be effective 10/1/23, get your team ready for these upcoming changes! Elimination of section G, revision to section GG, new items that supply data for Transfer of Health quality measures and Standardized Patient Assessment Data Elements (SPADEs), and review of the medication list means SNF clinicians need to rethink methods of communication and documentation to capture information for MDS 3.0 version 1.18.11.

SPONSORED BY:

In addition, significant changes to quality programs will be affected. Data collection impacting Medicare revenue will be sourced from multiple areas, including new items in the MDS, claims, and facility reporting portals. In order to avoid reduction in Medicare Part A reimbursement, new or revised data points added to the MDS will be required to achieve SNF QRP compliance.

This session will examine changes included in the new MDS version. Attendees will learn what new data collected in the MDS will be used for and explore potential impact to SNF 5-star ratings and Quality Measures. The presenter will explore best practices and strategies to capture, and code the additional items CMS will require from providers.

9:15 am — 10:30 am

#### **OPENING KEYNOTE:**

## The Power of Nursing: There is No Healthcare Without Nurses

REBECCA LOVE | INTELYCARE | CHICAGO·IL

The history of healthcare is one of untold stories of the power of the nursing profession to transform human health and healthcare. We will discuss the impact of nursing on the history of healthcare and the impact we will have as nurses on the future of healthcare as we focus on our power and skills that we will need to lead healthcare forward.

# Infection Control and Regulatory Updates

AMY LEE | CORETACTICS HEALTHCARE CONSULTING | REXFORD•NY

As CMS continues to hold infection control standards to the highest level, leaders need to continually review their processes and staff compliance. This session will review: recent federal regulatory infection control changes, the push for tougher regulations, enhanced non-compliance fines and practical approaches for leaders to ensure compliance; review the new QRP measures coming Fiscal Year (FY) 2024 related to infection control; recognize the 2023 changes to enhanced enforcement actions for non-compliance for F800 and F887; describe the key areas leaders need to have laser focus on to avoid deficiencies in infection control; and recognize the power of data management and quality assurance in ensuring your operations are on the right track.

12:30 pm — 1:30 pm LUNCH

1:30 pm — 2:45 pm +

# Nurses Need Compassion Too: Substance Use, an Occupational Hazard for Nurses

DEBORAH KOIVULA | STATEWIDE PEER ASSISTANCE FOR NURSES | ALBANY•NY

This presentation is offered with the goal of increasing awareness of current data on the dangers of substance use in the nursing profession. In this session we will explore the nurse leader's role in prevention, early identification, and compassionate intervention when nursing practice is impaired. Information will be provided on the available resources for all nurses in New York State to support these issues. The session will: review current data influencing substance use in the nursing profession; explore professional ethics related to identification, intervention, reporting and working with a known or suspected substance use issue; and explore available and emerging resources for prevention, early identification and intervention around substance related issues in New York and beyond. Information will be provided on the available resources for all nurses in New York State to support the belief that every nurse deserves access to treatment, help in preserving his or her license and employment status, and ongoing support throughout the recovery process. The aim is to restore the nurse to optimum health, preserve a career, and return a valuable resource to the healthcare community.

# Optimize Time for Optimal Outcomes

AMY STEWART | AMERICAN ASSOCIATION OF POST-ACUTE CARE NURSING | GLENDALE-CO

"Lost time is never found again." - Benjamin Franklin

Benjamin Franklin warns that time is a scarce resource and once it's gone, it doesn't come back. That is why it is important to invest time in things that have value and importance.

For nurse leaders, there are so many competing priorities that it can be overwhelming to know how to best allocate time. Survey, staffing issues, family concerns, and incident investigations are just a few of the daily challenges nurse leaders face. Join this session to learn how to best manage tasks, delegate to others, and collaborate with the team to share the workload.

4:30 pm — 4:45 pm

# Nurse Scholarship Ceremony

# IDR, IIDR and IRP: Building the Winning Argument

JANE BURKE | HODGSON RUSS LLP | ALBANY-NY

In this session, Jane Burke breaks down the process of developing a winning nursing home IDR and assisted living IRP. Using the investigatory process as a tool, this session walks through the mechanics, from incident to survey to filing, to help you to avoid the pitfalls and maximize the impact of your submission. This session also provides the tools you need, including checklists, sample forms and specific language, to complete and submit your survey challenge with confidence. In this session, participants will: understand when and how to use IDR and IRP to challenge regulatory violations; learn strategies for preparing and submitting effective survey challenges; and acquire tools to guide and streamline the survey challenge process.
